

Brann & Isaacson 2023 Client Holiday Announcement

In light of the terrible mass shooting that occurred in Lewiston, Maine on October 25, 2023, the firm has contributed to the Trinity Jubilee Center and the City of Lewiston Families and Victims Fund to help those most in need.

Since its founding in the 1920s in Lewiston, Maine, Brann & Isaacson has been a proud member of the local community. We have worked in, with, and for the city, its businesses, and its residents for decades. We know first-hand the community's strength, compassion, and resilience—all of which have been tested to the maximum by this horrendous event. We mourn the needless loss of life from the horrific shooting that affected the community and us deeply.

We have appreciated the outpouring of support and concern of clients, friends, opposing counsel, and former colleagues from literally around the world. It is a reminder of the depth and breadth of our community that extends far beyond our borders and far beyond the everyday practice of law.

Your continued support and friendship invigorates us as we commit to do everything we can to sustain the city and community that have for so long sustained us.

Happy Holidays from your friends at Brann & Isaacson
